

The K-LOVE radio network is a huge blessing to the communtiy in which I live. Their positive message is welcomed by young and old alike. The Bismarck Mandan area is served by very few contemporary Christian radio stations. The music and message that is heard assists in the spreading of stronger moral values. It can be heard in homes, cars, offices, schools,ect. This is a network that actually changes lives. How many secular stations can say that? Please reconsider replacing this signal.
